

## "Excellent Brick and Tile!"

From the re-pointed and painted roof to the polished cypress timber floorboards, this home impresses with the quality of its' construction and presentation. Offering a large lounge room which flows to dining and updated kitchen as the main features, the home also includes three large size bedrooms, each of queen bed size, mostly original bathroom in very good condition, with separate bath, shower and toilet; a separate laundry and single car garage with internal access. A good size back yard, an enclosed sunroom to front and a new electric hot water system finish the picture. A great starter home for a young family!

This home's instant appeal and liveability saw it sold quickly, before going on-line.
