

66 Acres Of Prime Land Near Oakey!

This 26.96 hectares parcel of land is in prime position to either expand on an existing farming operation or make the ideal spot for commercial premises.

Being a little more than 3 kilometres east of Oakey and right beside the highway opposite Henningsen Road it'd be perfect for a truck stop or a similar commercial operation. The current owners have done a feasibility study on the site and had a DA in place with required approvals from the Toowoomba Regional Council. I'll forward any documents you require as requested to help you make an informed decision. Please call if you have any questions or require something from me.
